

THE PRODUCTS YOU NEED

PRODUCTS TO FIT YOUR NEEDS

Choose between our state-of-the-art O-Series control or our standard 6-cycle control with simple, programmable options to fit your laundry needs. Our washers are available with 100G or 200G extract options.

PRODUCTS TO FIT YOUR SPACE

We offer washers and dryers to fit almost any space, most even fit through a 36" door. For limited spaces our stack washer-dryers double the capacity in the same footprint.

ULTIMATE FLEXIBILITY

CUSTOMIZABLE WASH ACTION

O-Series controls offer 100 programmable cycles with 20 stages and a variety of customizable options for the perfect wash cycles. Industry-specific cycle settings are preset and programming is easy with [DexterLive.com](https://www.dexterlive.com).

POWER AND PRECISION

O-Series washers combine the power of extended soak, the flexibility of customizable wash cycles and the precision of a 10-port chemical injection system for the power and precision you need.

PEACE OF MIND

EXPRESS WASHERS

Our Express washers spin at 200 g-force to remove more water, saving on dry time and utilities. This allows you to spend more time on the care of your animals, and less time on the laundry.

HEATED WASHERS

For applications where precision is critical, we offer heated washers that can heat up to 195°F (90.5°C). O-Series washers also record the temperature to verify that every load is safe.

QUALITY YOU CAN TRUST

PROVEN RELIABILITY

Every washer model is designed to withstand our extreme 1,000 hour test, running at maximum extract with an extreme out-of-balance load.

INDUSTRY-LEADING WARRANTIES

Our industry-leading warranties cover the major components on our washers for 10 years and dryers for 5 years. A 3-year parts warranty covers the rest. Plus, all of our products are backed with lifetime technical support.
